ORGANIC GEOCHEMISTRY

Affiliated with the European Association of Organic Geochemists

Editor-in-Chief:

Dr Earl W. Baker, College of Science, Florida Atlantic University, Boca Raton, FL 33431, U.S.A.

Associate Editors

Dr Simon Brassell, University of Bristol, School of Chemistry, Woodland Road, Bristol BS8, 1TS, U.K.
Dr Alain Y. Huc, Institut Français du Pétrole, P.O. Box 311, 92506 Rueil-Malmaison Cedex, France
Professor Dr Wolfgang E. Krumbein, Geomicrobiology Division, University of Oldenburg, P.O. Box 2503, D-2900 Oldenburg, Federal Republic of Germany
Dr James R. Maxwell, University of Bristol, School of Chemistry, Cantock's Close, Woodland Road, Bristol BS8 1TS, U.K.
Professor Philip A. Meyers, College of Engineering, University of Michigan, Department of Atmosphere and Ocean Science, Space Research Building, 2455 Hayward, Ann Arbor, MI 48109, U.S.A.
Dr Susan Palmer, Cities Service Co. Exploration & Production, P.O. Box 3908, Tulsa, OK 74102, U.S.A.
Dr William M. Sackett, Department of Marine Science, University of South Florida, St. Petersburg, FL 33701, U.S.A.
Dr Richard Scalan, Port Aransas Marine Laboratory, University of Texas, P.O. Box 1267, Port Aransas, TX 78373, U.S.A.
Professor Bernd R. T. Simoneit, College of Oceanography, Oregon State University, Corvallis, OR 97331, U.S.A.

Editorial Board

Chairman: Dr John M. Hunt, Woods Hole Oceanographic Institution, Woods Hole, MA 02543, U.S.A.
Dr Pierre Albrecht, Université Louis Pasteur de Strasbourg, Institut de Chimie, 1 rue de Blaise Pascal, B.P. 296/R8, 67008 Strasbourg, France
Dr Malvin Bjorøy, GEOLAB NOR A/S, Hornebergveien 5, P.O. Box 1581, 7001 Trondheim, Norway
Dr George E. Claypool, U.S. Geological Survey, Branch of Oil and Gas RES., Denver Federal Center, Denver, CO 80225, U.S.A.
Dr John W. Farrington, Coastal Research Center, Woods Hole Oceanographic Institution, Woods Hole, MA 02543, U.S.A.
Dr Thomas Hoering, Geophysical Laboratory, 2801 Upton Street, N.W., Washington, DC 20008, U.S.A.
Dr Ryoshi Ishiwatari, Department of Chemistry, Tokyo Metropolitan University, Setagaya-ku, Tokyo, Japan 158
Dr Keith A. Kvenvolden, U.S. Geological Survey, 345 Middlefield Road, Menlo Park, CA 94025, U.S.A.
Professor D. Leythaeuser, KFA (ICH-5) Jülich, P.O. Box 1913, D-5170 Jülich, Federal Republic of Germany
Professor Pieter A. Schenck, Delft University of Technology, Department of Chemistry and Chemical Engineering, Organic Geochemistry Unit, de Vries van Heystplantsoen 2, Delft 8, The Netherlands
Dr Martin Schoell, Chevron Oil Field Research Co., P.O. Box 446, La Habra, CA 90631, U.S.A.
Dr Otto P. Strausz, Department of Chemistry, The University of Alberta, Edmonton, Alberta, Canada T6G 2G2
Dr Jean K. Whelan, Woods Hole Oceanographic Institution, Woods Hole, MA 02543, U.S.A.
Dr Michael Wilson, C.S.I.R.O., P.O. Box 136, North Ryde, N.S.W. 2113, Australia

Members of the Council of EAOG

Professor P. A. Schenck—*Chairman*
Dr R. G. Schaefer—*Secretary* (KFA-Jülich-Institute for Petroleum/Organic Chemistry, P.O. Box 1913, D-5170, Jülich, Federal Republic of Germany)
Dr G. W. M. Lijmbach—*Treasurer*
Dr P. A. Albrecht Dr B. Durand Dr D. Leythaeuser Dr J. R. Maxwell

Publishing Office

Journals Production Unit, Pergamon Press Ltd, Hennock Road, Marsh Barton, Exeter, EX2 8RP, U.K. (*Tel.* Exeter (0392) 51558; *Telex* 42749)

Subscription Enquiries and Advertising Offices

North America: Pergamon Press Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A.: *Rest of the World*: Pergamon Press Ltd, Headington Hill Hall, Oxford OX3 0BW, U.K. (*Tel.* Oxford (0865) 64881).

1986 Subscription Rates (including postage and insurance)

For libraries, university departments, government laboratories, industrial and other multiple-reader institutions, 1986; U.S. $320.00. Two-year rate (1986/1987): U.S. $608.00.

Specially Reduced Rates to Individuals

In the interests of maximizing the dissemination of the research results published in this important journal we have established a two-tier price structure. Any individual whose institution takes out a library subscription may purchase a second or additional subscription for personal use at the much reduced rate of U.S. $60.00 per volume.
Supplied to members of the European Association of Organic Geochemists as part of their membership dues. Also available at the special subscription price of U.S. $35.00 per volume to members of the following organizations:

Geochemical Society
International Association of Geochemistry and Cosmochemistry
Organic Geochemistry Division of the Geochemical Society
American Chemical Society
Meteoritical Society
American Association of Petroleum Geologists

Copyright © 1985 Pergamon Press Ltd. Published bi-monthly.

It is a condition of publication that manuscripts submitted to this journal have not been published and will not be simultaneously submitted or published elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher, if and when the article is accepted for publication. However, assignment of copyright is not required from authors who work for organisations which do not permit such assignment. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microfilm or any other reproductions of similar nature and translations. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, electrostatic, magnetic tape, mechanical, photocopying, recording or otherwise, without permission in writing from the copyright holder.

Photocopying information for users in the U.S.A.
The Item-Fee Code for this publication indicates that authorization to photocopy items for internal or personal use is granted by the copyright holder for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service provided the stated fee for copying beyond that permitted by Section 107 and 108 of the U.S. Copyright Law is paid. The appropriate remittance of $3.00 per copy per article is paid directly to the Copyright Clearance Center Inc., 21 Congress Street, Salem, MA 01970. The copyright owner's consent does not extend to copyright for general distribution, for promotion, for creating new works, or for resale. Specific written permission must be obtained from the publisher for such copying. In case of doubt please contact your nearest Pergamon office. The Item-Fee Code for this publication is 0146-6380/85 $3.00 + 0.00.

Microform Subscriptions

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

PROCEEDINGS OF THE 1st MEETING OF THE INTERNATIONAL HUMIC SUBSTANCES SOCIETY

Estes Park, Colorado, August 1983

Editorial	vii	
Introduction	viii	
		Main Papers
G. L. Amy, P. A. Chadik and P. H. King	1	Chemical coagulation of humic substances: A comparison of natural aquatic versus soil-extracted materials
Cary T. Chiou, Thomas D. Shoup and Paul E. Porter	9	Mechanistic roles of soil humus and minerals in the sorption of nonionic organic compounds from aqueous and organic solutions
Andrew H. Gillam and Michael A. Wilson	15	Pyrolysis–GC–MS and NMR studies of dissolved seawater humic substances and isolates of a marine diatom
Brenda Little and John Jacobus	27	A comparison of two techniques for the isolation of adsorbed dissolved organic material from seawater
Donald S. Gamble, Cooper H. Langford and Alan W. Underdown	35	Light scattering measurements of Cu(II)–fulvic acid complexing: The interdependence of apparent complexing capacity and aggregation
Takao Katase	41	Possible transformation of selected phenolic acids during fractionation of humic substances and their distribution in peat soils
Koyo Yonebayashi and Tomoo Hattori	47	Nonaqueous titration of functional groups in humic acid
James J. Alberts and Todd J. Dickson	55	Organic carbon and cation associations in humic material from pond water and sediment
Linda J. Anderson, J. Donald Johnson and Russell F. Christman	65	The reaction of ozone with isolated aquatic fulvic acid
James N. Jensen, J. Donald Johnson, Jessica St Aubin and Russell F. Christman	71	Effect of monochloramine on isolated fulvic acid
Robert C. Cooksey, Eduardo Gaitan, Raymond H. Lindsay, John B. Hill and Kennis Kelly	77	Humic substances, a possible source of environmental goitrogens
S. A. Visser	81	Effect of humic acids on numbers and activities of micro-organisms within physiological groups
A. Ramunni, R. Scialdone and D. Felleca	87	Analytical problems in determining peptide nitrogen in the humic fractions of three Italian soils

P. Ioselis, Y. Rubinsztain, R. Ikan, Z. Aizenshtat and M. Frenkel — 95 — Thermal characterization of natural and synthetic humic substances

Extended Abstracts

Christopher A. Cronan — 105 — Chemistry and movement of dissolved humic substances in three forested Adirondack watersheds

Georg Becher and Georg E. Carlberg — 107 — Separation of aquatic humic material before and after chlorination using high-performance size exclusion chromatography

Wesley L. Campbell and Mollie J. Malcolm — 109 — Preparation, homogenization, and storage of earth standards used and distributed by the International Humic Substances Society

Michael Spiteller — 111 — Extraction of soil organic matter by supercritical fluids

E. Barriuso, J. M. Portal and F. Andreux — 115 — Controlled thermal degradation of humic and fulvic acids extracted at different pH values from an umbric dystrochrept

E. Barriuso, J. M. Portal and F. Andreux — 117 — A comparison of humic and fulvic acids extracted with sodium hydroxide at pH 10 and pH 12 from a representative umbric dystrochrept

William Fish and François M. M. Morel — 119 — Propagation of error in fulvic acid titration data: A comparison of three analytical methods

Nicola Senesi and Garrison Sposito — 121 — A comparative electron spin resonance (ESR) study of copper (II) complexes with soil and sewage sludge fulvic acids

E. Tipping — 123 — Accumulation of humic substances in the hypolimnion of a seasonally anoxic lake following cosedimentation with iron oxide

F. Gadel and Y. Debyser — 125 — Influence of the environment on the distribution and the nature of humic substances in recent deposits of epicontinental basins

Rudy Candler — 127 — Water extractable material from the B horizon of a contiguous aspen and birch forest in interior Alaska

Wu-Wey Wen — 129 — Humic substances in coal and weathered coal

Jean-Marc Bollag and Shu-Yen Liu — 131 — Formation of hybrid-oligomers between anthropogenic chemicals and humic acid derivatives

G. Spycher, P. Sollins and J. L. Young — 133 — Organic-humic materials and soil particles as developed in a chronosequence of forest soil parent materials

Farida Y. Saleh and David Y. Chang — 135 — Reversed phase HPLC of aquatic fulvic acid with dual UV and fluorescence detection

VOL. 8 1985

J. R. Tuschall Jr, C. J. Miles and P. L. Brezonik — 137 — Efficiency of isolating humus from natural waters using DEAE cellulose

J. F. McCarthy and B. D. Jimenez — 141 — Effect of humic substances on the bioaccumulation of organic contaminants by aquatic organisms

Annette Geller and Hans-Henning Stabel — 143 — Dissolved organic macromolecular and oligomeric lake water constituents: Preliminary characterization and biodegradability

Charles W. Carter and Irwin H. Suffet — 145 — Quantitative measurements of pollutant binding to dissolved humic materials compared with bulk properties of humic materials

Number 2

Philip M. Shaw and R. B. Johns — 147 — Organic geochemical studies of a recent Inner Great Barrier Reef sediment—I. Assessment of input sources

Nicola Senesi and Sandor Sipos — 157 — Molecular weight distribution, analytical and spectroscopic characterization of humic fractions sequentially isolated by organic solvents from a brown coal humic acid

Trevor D. Gilbert, Lorraine C. Stephenson and R. Paul Philp — 163 — Effect of a dolerite intrusion on triterpane stereochemistry and kerogen in Rundle oil shale, Australia

Rohinton Noble, Robert Alexander and Robert Ian Kagi — 171 — The occurrence of bisnorhopane, trisnorhopane and 25-norhopanes as free hydrocarbons in some Australian shales

John D. Payzant, Thomas W. Mojelsky, Terry D. Cyr, Douglas S. Montgomery and Otto P. Strausz — 177 — The identification of 9-*n* alkyl fluorene-9-ols in the Alberta oil sands

E. Tannenbaum and Z. Aizenshtat — 181 — Formation of immature asphalt from organic-rich carbonate rocks—I. Geochemical correlation

Book Reviews

Tommy B. Thompson — 193 — "Annotated Bibliographies of Mineral Deposits in Europe" by John D. Ridge

William M. Sackett — 193 — "Microbial Mats: Stromatolites", Edited by Yehuda Cohen, Richard W. Castenholz and Harlyn O. Halvorson

Editorial Acknowledgements — 195

ORGANIC GEOCHEMISTRY 2

A SELECTION OF PAPERS FROM THE 2nd AUSTRALIAN ORGANIC GEOCHEMISTRY CONFERENCE

May 28–29, 1984

Plenary Lecture
Michael A. Wilson and Anthony M. Vassallo — 299 — Developments in high-resolution solid-state ^{13}C NMR spectroscopy of coals

R. W. Dunlop and P. R. Jefferies — 313 — Hydrocarbons of the hypersaline basins of Shark Bay, Western Australia

Frank T. Gillan and Mark W. Sandstrom — 321 — Microbial lipids from a nearshore sediment from Bowling Green Bay, North Queensland: The fatty acid composition of intact lipid fractions

Peter M. Fredericks, Peter Warbrooke and Michael A. Wilson — 329 — A study of the effect of igneous intrusions on the structure of an Australian high volatile bituminous coal

J. W. Smith, D. Rigby, K. W. Gould, G. Hart and A. J. Hargraves — 341 — An isotopic study of hydrocarbon generation processes

Alan L. Chaffee and R. B. Johns — 349 — Aliphatic components of Victorian brown coal lithotypes

E. J. Evans, B. D. Batts, N. W. Cant and J. W. Smith — 367 — The origin of nitriles in shale oil

T. V. Verheyen, A. G. Pandolfo and R. B. Johns — 375 — Structural relationships between a brown coal and its kerogen and humic acid fractions

OL.
